INFOWHEELS

You decide where and when to set up this easy, low cost, multi-functional unit. InfoWheels are the largest promotion vehicles you are allowed to operate with a European driving licence category B. Aside from being easy to set up, these conveniently sized vehicles always manage to stand out.

INFOWHEELS

Low Cost

No need to hire a professional driver. You, your staff, or anyone with a regular driving licence (category B) can get behind the wheel of this multi-functional mobile unit.

Easy to set up

It takes just five minutes to set up the InfoWheels unit, giving you and your team more time to interact with consumers.

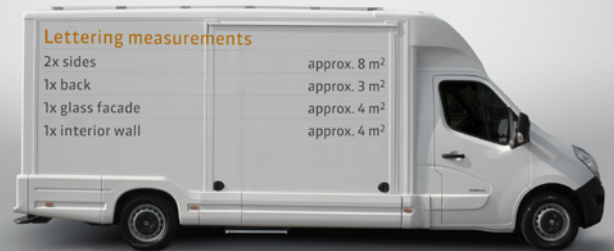

Multi-functional

Use the InfoWheels as a mobile consumer information centre or as a mobile pop-up shop. Open up the back and the side door to reveal an easily accessible retail space.

Use the InfoWheels for your specific mobile marketing, retail, sales, communication or advertising needs.

Efficient

It's not just its size and design that make this mobile unit so easy to use. The InfoWheels are fully self-supporting and environment-friendly units. The optional combination of solar panels and an extra large battery package will provide you with sufficient, reliable and eco-friendly energy.

Your Affordable Road Show
