EggStreamer XL

Smart thinking.

In control of everything with your self-drive roadshow.

The **EggStreamer®** is a highly distinctive roadshow solution that provides a combination of high impact to consumers and operational flexibility. **EggStreamer®** are exceptional in mobile sampling campaigns for a broad cross section of brands. This roadshow solution is designed to provide operational flexibility to work in all busy urban environments. The **EggStreamer®** has a hydraulic canopy that makes an exceptional communication space. It takes only five minutes to set up the **EggStreamer®**, giving you and your team more time to interact with consumers.

Drive yourself

No need to hire a professional driver. You, your staff, or anyone with a regular driving license (category BE) can tow this multifunctional mobile unit.

Low cost

EggStreamer® are one of our promotional vehicles that can be driven with a category BE driving license. Due to their relatively small size and easy set-up, you decide where and when to set up this easy, low cost, multifunctional unit.

Easy setup

Save set up time. It takes just five minutes to set up the EggStreamer® unit, giving you and your team more time to interact with your audience.

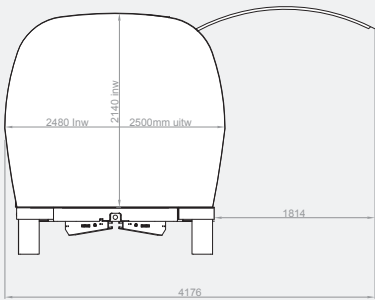

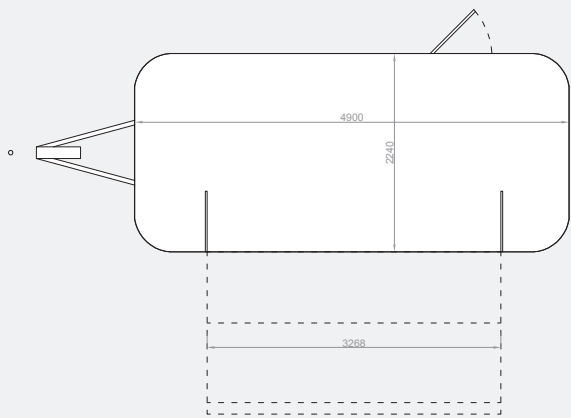

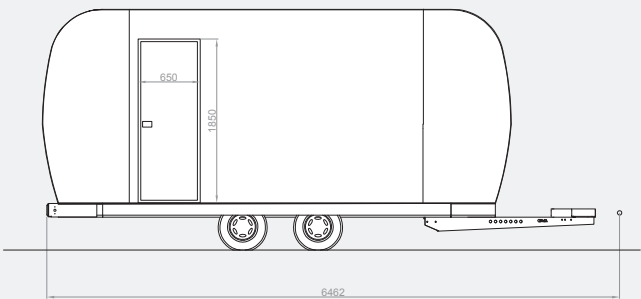

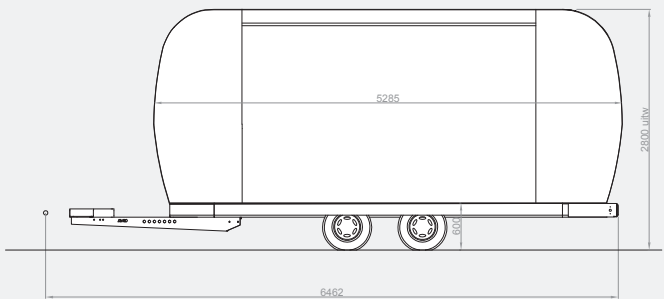

Multi functional

Use the EggStreamer® for your specific mobile marketing, retail, communication or advertising needs. The EggStreamer® modular interior provides convenient options for a variety of purposes.
